SUPPORT US AS WE SERVE YOU

BRAC is committed to continuing to serve teaching artists, students and families by providing access to art experiences. While we moved our spring classes to online, we continued our commitments to our community by offering free at home lesson plans and visual art workshops through zoom. The responses we have received have been overwhelmingly positive. We are so pleased to offer our community six 5 week classes in Visual Art and Digital Media this spring semester.

The power of art includes it's ability to reflect on our emotions and to create hope for our future generations. The arts have been impacted economically during the coronavirus pandemic. In order to continue to employ our teaching artists and to provide you, our community members, with access to art classes and exhibitions, we need your support. We ask that you please support all of the work we do by donating to the Bronx River Art Center today. Your support is critical now more than ever as we work to bring our mission to life in new ways.

We realize that these unique times are challenging for everyone. With our artists and families in mind - we are doing our best to serve our community with the resources available to us. As we cope with the uncertainty that surrounds us and our future, we are asking for small contributions from our patrons.

Build with us by purchasing a membership with BRAC. We offer a selection everyone can benefit from; from individual to family memberships. A membership with BRAC means early entry to all exhibitions and special events, as well as additional savings on performances and classes. Please visit our [Support Us page](#) to discover how you can help us serve you. Thank you for being part of the Bronx River Art Center family!

BRAC Artists: Why I Teach / Volume 2

Opening this May

-Virtual Student Exhibition for Spring
Students Opening at the end of June

BRAC would like to thank our interns from the High School of Art and Design for their spirited service to the community. Their choreographed clean up of the Holiday Pot luck was unforgettable! Also, a special shout out to Bronx High School of Science Intern, Mahdi Chowdhury for his commitment, technical knowledge, and attention to this newsletter!

This program is made possible with support from the NYC Department of Cultural Affairs in partnership with the City Council, including Members Ritchie Torres, Andrew Cohen, Andy King, Mark Gjonaj, Rubén Díaz Sr. and Bronx Borough President Rubén Díaz Jr., the NYS Council on the Arts with support from Governor Andrew Cuomo and the NYS Legislature including Assembly Member Karines Reyes and Senator Luis R. Sepúlveda, and the Bronx Delegation. Additional support from Con Edison: The Power of Giving, Bronxcare Health System, and private donors.
